

CHIEFS REPORT

06/10/10

We have received a copy of our change order for the new truck. We deleted four items; we are not painting the roll up doors (-\$668.00), deleted the remote control deck gun (-\$6,822.00), deleted the Akron 5177 nozzle (-\$1,316.00, deleted electric side dumps for manual operated (-\$4,428.00), and added an Elkhart 8297 -25 Stinger monitor w/stacked tips and stream shaper/SM-1000 nozzle (+3,698.00). This changes the price to \$365,347.00 a \$9,536.00 reduction.

Unit 115 a 2003 ambulance from Station 1 was sent in this past month to replace one of the batteries. (it is now at American Enterprises for charging issues.

Don Hoeft, Don Murray and myself met with Mark Mulligan last week to discuss the steps that need to be taken to get the new building started. We also met with Jim Adkins from the County and he offered many suggestions on how to go about hiring someone.

Everyone is aware of the tornado this past weekend. This situation is ongoing at this time. I will say we have been very busy with the emergency and the clean up. I could go on forever talking about the situation. I would like to say that I believe that this community is very blessed with the volunteers that we have. It takes a special person to pick up and leave his or her family in a time when everyone else is taking cover or picking up the pieces. Our people handled there self's very professionally and acted accordingly. Even though our department is manned by volunteers I consider them professionals. I would like to give a big THANK YOU to each and everyone.

Respectfully Submitted,
