

CHIEFS REPORT

10/14/10

Tonight we have with us one of our newest members, Andrew Colyer from Station 3. Congratulations Andrew, will you please come forward to be sworn in.

Our other member Greg Bowman from Station 1 is taking a Firefighter II class and will be sworn in when he finishes his class.

Maintenance this past month;

Unit 115, 2003 Ambulance at Station 1, was sent to Burgess Ambulance for repair of the air conditioning unit. The evaporator went out and was replaced and the other leaks were to be repaired. Also while it was in I had the rear captains chair seat mount replaced as it was get real loose. I also ordered one for the sister unit at Station so we can replace that mount as that mount is worse shape than 115's. This unit will be back tomorrow.

I received notification by email on October 7th from the Assistance to Firefighter Grants that they had received our request for funds for our 2009 Equipment Grant. Our request was approved and the electronic payment would be made within 3 to 5 business days. This money is for the fire hose and hydraulic rescue tool and associated equipment.

2011 Equipment Budget; see attachment.

Respectfully submitted,
